THE MASSACHUSETTS CHARITABLE MECHANIC ASSOCIATION.

ANNOUNCE to the public that their THIRD EXHIBITION for the encouragement of manufactures and the Mechanic Arts, will be held at Quincy Hall, in the city of Boston, commencing on MONDAY, SEPT 20, of the present year.

The officers and trustees for the year 1841, have been vested by the association with full power to make the necessary arrangements, respectfully invite Manufacturers, Mechanics and Artists, ingenious and scientific, to offer for Exhibition and Premium articles in every department of Art, Science, and Taste, choice specimens of native skill and ingenuity, useful labor saving machines, implements of husbandry, and new models of machinery in all their variety, in fine every specimen of article for any useful or ornamental purpose made of wood, stone, metal or other materials. The products of the loom in silk, cotton, hemp, flax or hair, and all articles devised or fashioned in beauty or wrought by their industry, will have a proper place in the exhibition. Medals (of gold or silver) or Diplomas will be awarded for all articles of merit deemed worthy of such distinction, and the Managers pledge themselves that strict impartiality will be observed in their distribution, and that competent judges will be appointed, who in no case will be competitors for premiums on articles exhibited.

With the fullest confidence that this notice will meet the early attention of the Manufacturers and Mechanics of Massachusetts, as well as of our other States (whom we shall be proud to meet in this glorious field of competition) the Managers will make such arrangements as shall insure a fair and full opportunity for a display of every article which may be entered on or before the 15th of September, and although they will not exclude such articles as may be afterwards offered, yet they cannot promise them so conspicuous a place in the Exhibition as those will have which are early entered.

Articles intended for Exhibition must be delivered to the Superintendent at Quincy Hall, on or before Wednesday Sept 15th.

Articles may be offered by Apprentices (by permission of their Masters, who if required, must give their names, ages and the time they have served as apprentices) which will be registered with adjudged as the productions of Apprentices.

Arrangements will be made to exhibit, in operation, any working models that may be offered which will render the Exhibition useful and interesting.

Communications relating to the Exhibition may be addressed to WILLIAM WASHBURN, Superintendent, or HENRY W DUTTON Secretary, 10 & 12 Exchange street (post paid.)

WHEREAS Edward Smith of Boston on the fifth day of July A D 1783, purchased by their warranty deed of that date and recorded July 3d, 1804, in the Registry of Deeds Office for the county of Hancock for the consideration of five hundred pounds of the Penobscot tribe of Indians, the following tract of land, to wit, Beginning at the head of the tide on Fish Falls and running from thence easterly six miles to a corner, from thence northerly eight miles keeping the distance of six miles from the river, to a corner, from westerly six miles to the river, from said Penobscot river still westerly six miles upon the west side of said river to a corner, from thence southerly to the old first line eight miles to a corner; from thence to the first specified bounds including all islands and brooks and streams. And whereas the heirs of the said Smith, since his decease have conveyed to me by their deeds duly recorded in the year A D 1835 in the Registry of Deeds Office for the county of Penobscot, which is a part of the territory formerly included in the county of Hancock. And whereas in the month of March now last past I the subscriber entered upon all of said property, and took and retained possession of the same having erected a dwelling on the same and now residing thereon. And whereas my title is of an earlier date and earlier recorded than any other pretended title to the same. Now therefore this is to give notice to all concerned that I intend to hold said land, and to hold all persons accountable to me for the same and to caution all persons against purchasing or paying for any land included in said boundaries, and not held under my title. And I further give notice that I am willing to make an equitable adjustment with all innocent purchasers under other pretended titles, if any there be and that I shall be found at my dwelling house on said land, on the Campbell hill, so called, about three miles from the city bridge near Capt Wm Lowder's mill, in said Bangor where I will attend to the business growing out of the same.

CONSUMPTION AND LIVER COMPLAINT.
BALSOM OF LIVERWORT

DR TAYLOR'S BALSOM of LIVERWORT has been used successfully for eight years in the Cure of these Diseases. Remember! the original and genuine is made ONLY at 570 Bowery, New York. ALL others are spurious and unauthorized.

CONSUMPTION & LIVER COMPLAINT.

As a general remedy for those diseases, I am fully satisfied from long experience there is no medicine equal to Dr Taylor's Balsom of Liverwort. Being pure vegetable it can be used with the utmost safety by all persons in every condition. It cleanses the lungs by expectoration relieves difficult breathing, and heals the chest. There can be no question but this medicine is a certain cure for chronic coughs and colds. I have used it for four years in my practice and always with success. A F RODGERS M D

SPITTING OF BLOOD. This disease consists of a discharge of blood often frothy from the mouth brought up with a hard coughing and is usually accompanied with difficulty of breathing and some pain in the chest. Sometimes it is preceded by an oppression at the chest, a dry tickling cough and slight shooting pains. This disease is always more or less dangerous. The great danger is that these symptoms may terminate in consumption and immediate remedies can alone save this end. But Dr Taylor's Balsom of Liverwort is a sure remedy and to shew its unparalleled success certificates of cures from 421 citizens and many physicians, will be published in a few days.

NERVOUS DISEASES AND WEAKNESS. Dr Taylor's Balsom of Liverwort made a [illegible] for these diseases. My wife has been more or less ill for ten years. She was extremely nervous and at times so weak that she could not attend to her domestic duties. By the use of this medicine her strength is wholly restored and she is as healthy as I can wish her to be. My address is at Dr Taylor's office.

CURE OF CONSUMPTION. Mrs Martin a worthy member of my congregation was taken ill some time since with a cold pain in the breast and some difficulty of breathing and in a few days thereafter she had a violent cough and violent pain in the sides which no medicine would relieve. She continued in this way for a long time under the medical care of Dr Rex but finally became consumptive and was evidently near the end of her earthly sufferings when her brother persuaded her to try Dr Taylor's Balsom of Liverwort. When she commenced this medicine it did not seem to agree with her for a few days but by lessening the dose she found it agreed admirably. It relieved her cough and her difficulty of breathing instanter, and we had the pleasure of witnessing her rapid recovery to health.

THE REVENUE BILL

This is one of the great measures before Congress and which became necessary as a partial arrangement of the Tariff to provide for the expenses of the government, and to pay the debt saddled upon the country by the late administration An immediate revenue or a direct tax is necessary, as the miserable policy of continually running in debt for the current expenses of government will not and ought not longer to be endured by an upright people The question is as to which of these measures the people prefer, a revenue that shall aid in protecting American growth and manufactures, and off set the restrictions imposed on our articles, or taxing every man's farm or house lot

The representatives of the people in Congress, believe that the people perfer the former method, and we think they have judged correctly To effect this object the Revenue bill has been introduced and passed the House of Representatives, and is before the Senate Great efforts are being made by the opposition not only to the measures of the bill, but to misrepresent its character and effect

With the understanding, then, that some measure, either by revenue or a direct tax is necessary for the honorable support of the government and to pay the national debt, let us state a few facts relative to the present state of the Tariff and the proposed alterations

The following articles and amount of foreign cost and charges, was imported in 1840, free of duty, viz.

Silks, lace veils, shades &c	$300 859
Silks, other manufactures of	7 978 100
Silk and worsted goods	1,729,792
Camlets of goats hair as cashmeres	7 240
Worsted stuff goods	2 387,338
Linens, bleached and unbleached	4,179,120
Ticklenburgs, Osnaburgs and burlaps	339,954
Sheetings, brown and white	261 173
Bolting cloths	74,534
Wool, not exceeding 8 cts per lb	675 009
Animals not for breed	145,511
All other articles	5 849,116
	23,926,845

The Revenue bill proposes a duty of twenty per cent on the above list and amount, which, on a like importation would cause to accrue to the Treasury the sum of $4,785,269, to help support the government and pay the debt. Farmers, land holders, which would you prefer, the duty or a tax to the amount?

The above table will explain the principles of the bill in reference to other articles whether imported free of duty or a less duty than 20 per cent To illustrate The duties now provided by law on a variety of wines imported in 1840 amounted to $196 073 79 The same amount of importations at twenty per cent would give $441 835 20

Blankets silvered or plated wire, silks from China, saddlery, lace, hair cloth, quills prepared, raw silk and similar articles at the rate of duties, varying from 5 to 15 per cent, paid in 1840 $129 979 77, and under the proposed duty will pay on a like importation $777 203 80 or a difference of $307 224 03 The importations of almonds, camphor, cloves, coffee cassia ginger, currants, cocoa, figs, prunes, raisins, mace, nutmegs, tea, cinnamon pepper, pimento in 1840 amounted to $15,151 584 and were free of duty and at a duty of twenty per cent on the same amount of importation will give a revenue of $3 230 316 80 The question renewedly urges itself upon us, shall these several amounts be paid by a direct tax or by a revenue?

The bill provides that all articles which are now admitted free of duty, or which are chargeable with a duty of less than twenty per cent ad valorem duty, shall pay a duty of twenty per cent ad valorem, with a few exceptions named Among the exceptions are the following to be admitted free of duty Philosophical apparatus books charts, cabinets of coins gems, medals and all other collections of antiquities, models of machinery and the models of other inventions, plants and trees, implements or tools of trade of persons arriving in the United States, Burgundy pitch, berries used for dying flints, India rubber, ratans unmanufactured, tamarinds, animals imported for breed &c

The following articles are to pay the present duty, the amount of which we shall place against each article Muriatic acid, 12 1 2 per cent, sulphuric acid or oil of vitrol, 3 cents per lb, alum 2 50 per cwt, tartaric acid 15 per cent, aquafortis 12 1 2 per cent, blue vitriol 4 cts per lb, calomel 15 per cent, carbonate of soda 15 per cent, corrosive sublimate, 15 per cent combs 15 per cent, gold and silver and other watches and parts of watches 12 1 2 per cent, gold and silver lace embroidery and all articles composed wholly or chiefly of gold or silver 12 1-2 per cent, gems and precious stones, and pearls of all kinds when set, 12 1 2 per cent, jewelry 12½ per cent, nitrate of lead 12½ per cent red and white lead ground in oil 5 cts per lb, sugar of lead 5 cts per lb, manganese 15 per cent, sulphate of magnesia 15 per cent, bichromate of potash 12½ per cent, chromate of potash 12½ per cent, prussiate of potash 12½ per cent, glauber salts 2 cts per lb, rochelle salts 15 per cent, sulphate of quinine 15 per cent, refined saltpetre 3 cts per lb

The above list comprises every article, under this head, of the exception to the duty of twenty per cent

This arrangement of the Tariff is not considered a permanent, but a partial one, to enable the government to get out of debt without sending round the Tax gatherer to collect a direct real estate tax, and grind down the farmers

WEEKLY SUMMARY

The weather the past week has been exceedingly warm and quite dry, although we had a pretty little shower on Friday morning. Our farmers have secured a good crop of hay, at a cheap rate and in fine condition on account of the fine weather The crop of hay in the southern and western parts of the State will be light and it behooves our farmers to sow english turnips on the pea plats, among corn and all open places that have been well manured, in field or garden Our correspondent at the Aroostook states that the grain crop looks promising, but is begining to need rain The hay crop there is good The dry weather has afforded a fine opportunity to farmers in the interior for burning their fallen trees Our market has been well supplied with berries, the early vegetables and green corn The lumber business keeps up very well, and arrangements are making for prosecuting the business with the usual vigor the next winter The whooping cough and scarlet fever still lingers among the children The cause of temperance is still progressing and additions to the pledge are frequently made We have had Miller prophecy, anti Miller, and Shaker lectures and Shaker dances and songs The Bangor took on board about a hundred and fifty of our citizens on a delightful excursion to Castine on Thursday The County Commissioners have held a session of their court for a couple of days The Police Court has not been over burthened with business The time of redemption of real estate sold for taxes expired on Thursday, and the way money was tendered and deposited was a caution A number of lots have no doubt been forfeited The City Clerk says very few people are inclined to be married Thick fog begins to make its appearance in the mornings Gov Kent and several other of our citizens are spending a few days at Owl's head, a cool and delightful retreat near salt water Mechanics are still well employed A new foundry and machine shop is fitting up on Franklin street The whigs have had a caucus chosen delegates to the Orono Convention on the 10th inst Politics is fast getting to be the order of the day The whigs are getting waked up and it is high time

The sloop Phoenix, from this place, with a lot of passengers on a fishing excursion, was detained at Mt Desert a day or two by the collector until the captain could send to Castine and get his coasting papers, which he had left in his trunk at that place

This detention was a little vexatious to the passengers but created no little merriment along the shore and in this city, as the passengers were some of our well known and highly respectable citizens and no pirates at all!! Fifteen of the passengers came up in the Bangor while on her late excursion

FIRE The saw mill and lath machine owned by Wm Lowder & Sons of this city, and situated at the outlet of the Harthorn Meadow, was consumed by fire last evening together with about thirty thousand feet of boards and one or two hundred cords of wood The owners state that no fire has been in the premises for some time and they are entirely unable to account for the origin of this No insurance

[For the Whig and Courier]

EXAMINATION INTO THE CAUSES OF THE STATE DEBT, AND THE MANAGEMENT OF THE CIVIL POSSE

The public debt of this State now amounts to the sum of nearly $2 000,000—to meet the annual interest of which and defray the ordinary expenses of the Government a yearly tax of $250,000 will be required That the annual payment of so large a sum, imposes upon the State a very great burden, no proof will be required by those who have any part of this burden to bear, and are now contributing their quota toward the tax of the present year Like our sister States, we find ourselves very much involved in debt, but unlike them, the money for which this debt has been contracted has not been expended (if we except the bounty of $95 000 paid to encourage the growing of wheat and corn) in developing the resources of the State, nor in works of internal improvement which promise, from the income arising from them, a full return of the amount expended, beside adding vastly to the capital of the State About $450 000 of our debt is the result of the unfortunate expeditions of the civil and military forces to the Aroostook in the year 1839.

In the following pages, I propose to examine into the manner in which the affairs of the *civil posse* were conducted whether the enormous sum paid out on account of it, was judiciously expended, whether the whole amount of service with which the State was charged, was performed and what *service* was actually rendered by this force, and whether the conduct of those to whose care and management it was entrusted, was characterized by such prudence, care and economy, as to entitle them to have again committed to their hands the interests of the State

The whole expenditures on account of the Civil Posse up to January 1 1840 amounted to the sum of $191,532 53 an amount almost equal to the State tax assessed for the present year The different items of it are as follows

For labor,	$87 008 41
" subsistence,	26 343 01
" transportation,	10 399 82
" forage,	5 125 83
" quarters,	676 28
" miscellaneous,	42,375 11
" military stores received by Land Agent from Quartermasters department,	14,604,07
" amount of outstanding claims estimated by late Land Agent,	5,000 00
	$191,532 53

Can this enormous amount have been expended, and, if so, for what object, and what benefit has the State received from this expenditure The most obvious source of information would be the books in the Land Office which should show the amount of service rendered the manner in which the men had been employed, and the various objects of expenditures in detail If these had been properly kept the task would have been a comparatively easy one for with the proper data before us each person could have judged for themselves, whether we had been overcharged and our money squandered or not But the books in the Land Office, throw no light upon this question, for no part of the expenditures of the civil posse were entered up on the books in the Land Office, although it was made the duty of the Land Agent under the law of March 24 1835, "*to make out quarterly trial balances and balance sheets of the Land Office ledger, and return the same to the office of the State Treasurer*" This provision of the law was not complied with, as regards these expenditures The only books containing any daily account of the transactions, receipts and disbursements, under said resolves, were kept out of the office by the agents and disbursing officers of the department During the *past* year, there has also been a journal and ledger kept in the office upon which the drafts of the sub agents upon their principal have been charged and in which have been entered payments made to men, on certificates issued by the sub agents These books seem to have been kept as distinct and separate from the ordinary transactions of the Land Office, as the nature of the business would admit Upon examination of these books it was found *that no general account of the receipts from the Treasury or from the sales of trespass timber, nor of the disbursements of the money had been kept* with the State and what will appear still more surprising, to every practical business man, is the fact that although the accounts of the late Land Agent as settled by the late Council show that he received from the treasury of the State the sum of $157 900 and has by himself and his agents, disbursed more than $170,000 *he never kept a cash account with himself, with the State, or with his agents of any of these receipts or disbursements* and the amounts received by him from the Treasury can be only ascertained by the amount of Warrants drawn by the Governor in his favor, and the amount of his disbursements, the sums with which he was charged, and which he paid to persons who were, or represented themselves to be in service of the State, as copied from their receipts and the bills filed by the late Land Agent as vouchers of his account, settled by the late Council

There is nothing in the Land Office, to show for the first year of the employment of the civil posse, to show when men were employed, when they were discharged, the nature of the service rendered, but the receipts which in most cases were taken, which is at best but a very imperfect voucher For it does not appear that the person who made the payments had any evidence of service the person to whom these payments were made, had rendered the State The only proper voucher would have been a certificate of the officer or agent who had the care of the men, of the number of days, the nature of the service performed, and the sum to which he was entitled This salutary rule was adopted a part of the last year in case of the men employed at Fort Fairfield Although in most cases it is probable that the men to whom payments were made were in some manner or other *detained* in the service of the State the number of days specified in the receipts yet the necessity of the service or detention, in a great number of cases there is not the slightest evidence on the contrary, if the reports of Mr McIntire are to be credited a much less number of days service was rendered than what the State was actually charged If men were on the ground the number of days charged, without any necessity therefor, it amounts to the same thing as if they been paid for services when in fact they had never been employed; upon either supposition, the conduct of those who had the management of the posse was equally culpable

Town, the Teller of the Illinois Bank has confessed his crime of robbing the Bank and made a full developement of the facts, and said that the destruction of the Books was resolved upon in a moment of desperation, at the loss of character consequent upon the discovery of a long series of depredations upon the funds of the institution This course commenced soon after he went into the Bank three years since and which he had great difficulty in concealing from the former cashier

He became more adroit as he proceeded in his frauds, and was able to deceive the present Cashier who had unbounded confidence in him Town averred most solemnly that the whole sum used by him was a little less than $4000, which will be the only deficit. The money taken from the vaults of the Bank was all recovered by Col Mather on Monday night It was buried in three places A part of it in the Diamond Grove, part of it north of town on the barrens; and the gold in the stable lot The process of robbery was commenced on Friday night, and ended on Sunday night In his confession to Col Mather, he implicated no one else, nor did he at any time afterwards.

Town was committed bail to the amount of $9,000 being required

CONGRESS.

MONDAY, Aug 2

In the Senate various memorials were presented relative to National Bank, Bankrupt Law, Public Lands and Tariff Among them the proceedings of a meeting in Virginia against a National Bank caused quite a debate on the Constitutionality and expediency of a Bank The proceedings were laid upon the table and ordered to be printed

The Bill making further provisions for the pauper lunatics of the District of Columbia, was read a third time and passed

The Revenue Bill and the bill relating to the extension of Military Land Warrants, from the House, were twice read and referred the former to the Finance Committee, and the latter to the Committee on Public Lands

The Fortification Bill from the House was taken up and debated, with reference to amendments, during the day Several amendments were adopted, among which was one offered by Mr Benton, appropriating $75,000 for a site of a Western or South-Western Armory to be selected by the President of the United States

The Senate without any decisive action upon the bill adj at 4 o'clock

In the house the Fiscal Bank bill from the Senate was taken up and discussed during the day

IMPORTANT FROM CHINA

The ship Akbar, arrived at New York from Canton in 100 days The captain states that immediately after the fall of the Bogue forts the city of Canton was evacuated by all who could afford to leave, taking with them their families and property, and when the Akbar left, China street and the business part of the suburbs were deserted, the shops closed, and scarcely any one to be seen On the news of the attack upon the Bogue reaching Pekin the Emperor ordered three Imperial Commissioners (one a near relative) to proceed to Canton, and to exterminate the English, swearing in his edict that both powers could not stand, one or the other must conquer or perish. Keshen was ordered in chains to the capital to be tried as a traitor for having degraded himself so much as to meet the plenipotentiary or to listen to the cession of Hong Kong Two of the important characters reached Canton in time to behold the success of the British arms, and to sign the truce and sanction a temporary trade

Captain Elliot was at Canton, protected by a military guard waiting the arrival of "Yih shan," the Emperor's nephew, who was hourly expected, and who would be compelled, by force of necessity, to sanction the arrangements made by his colleagues

The mandarines commenced removing their goods and chattles from Canton on the 2d of April

The Canton Press of March 27 states that the greatest activity prevails in all the arsenals and foundries It is the express desire of the emperor and the war party now in power to cast as many guns of the largest calibre as the state can afford Some of these weigh as high as 30,000 catties

Major Gen Sir Hugh Gough arrived on the 2d of March, as Commander-in-Chief of the land forces

Sir Gordon Bremer had gone to Bengal for reinforcements, but was expected to return about the 1st of June, when the fleet would go North again, to make another demonstration upon the capital, Pekin

The loss of the Chinese in the various engagements was estimated at 2500 or 3000 men, and about 800 pieces of cannon

The day after the fall of the Bogue forts rewards were offered for the capture or destruction of British ships $100 000 for a line of battle ship, $10 000 for a steamer, $50 000 for the admiral or Capt Elliot, if taken alive, and $30 000 for either of their heads

Teas were high and scarce The Hong merchants would deal only for cash, and insisted on being paid before the teas were delivered It was believed that the arrangement for trade could not last long, and the foreigners would be again compelled to leave for Macao A large encampment of Chinese troops was visible from the factories at a little distance from Canton, and the number was daily increasing

According to Bicknell's Reporter, the Philadelphia Money Market continues easy The amount on deposite in the Bank is large. The fall trade had commenced and many western merchants were in town The Reporter says, the U S Bank notes are as much depreciated as ever, and despairs of the speedy and satisfactory redemption of this description of paper It is informed that with the last few months the Bank has taken in $1,000 000 of notes and given in exchange, certificates bearing interest They are now from 18 to 19 percent below other Philadelphia paper The bank is being sued nearly every day adds the Reporter, and appears to be in a pitable condition The directors are doing what they can; but the public do not appear to have much confidence in their ability to do

Doddington was very lethargic Falling asleep one day after dinner, with Sir Richard Temple, Lord Cobham, and several others, one of the party reproached him with his drowsiness He denied having been asleep, and to prove that he had not, offered to repeat all that Lord Cobham had been saying. Cobham Challenged him to do so Doddington repeated a story and Cobham said that he had been telling it. "Ah," said Doddington, "and yet I did not hear a word of it, but I went to sleep because that I knew the time of day you would tell that story

The way the Locos do it Their papers are teeming with a long string of the most contemptible falsehoods about the administration, and what they have done, and what they intend to do and because they are so flagrant and foolish that no one alludes to them at all, the next thing we see is the same papers most unqualifedly asserting them all to be truths, and to prove it say that no one has denied them In this way they weekly put to shame their great father of lies

Newspapers There are nearly as many newspapers published in the United States as are published in all Europe In the United States there are 1250 newspapers in Great Britain and Ireland the number is 480 in France 250, in Prussia 230, in Austria 9—Which shows that there are only 16 more newspapers in Europe than are published in the United States

I'll be BLESSED if I do as the girl said when her lover asked her to be married

A captain of a ship said to a sailor who fell overboard that morning, "you have had but an indifferent breakfast"

"Not so bad," replied the tar, "for I have had good luck"

Adams's Venus Water.
THE Remedy for the Sovereign Restorative of the grand producer of the hair. The subscriber informs the public that after FORTEEN YEARS of study in which time he has been years of unremitting labor and diligently he has discovered the only true remedy against the ass the sovereign restorative in case of deficiency and the grand producer of that most beautiful ornament of the human form divine THE HAIR!
That it may be known that this Venus Water is an invaluable article I will state that in the first years of my labors in its application to the head for two consecutive seasons was necessary in order to establish a good growth of hair but now one wave season is required so successful have been my improvements upon it And I have the proud satisfaction of knowing that in the City of Bangor alone *the hundred and forty heads* which were once bald can be seen with a growth of hair upon them bearing witness to the wonderful effects which his Venus Water has produced within eighteen months!
I will add a few of the certificates of persons in this vicinity who have long been in advance of others and have derived benefit from this Water
Mr T D Adams Having experienced the extraordinary benefit of your Venus Water I feel in duty bound to give the public my testimony in its favor. I was in a state of baldness and my hair was fast falling off the front in my case The hair on the top of my head was entirely gone for seven years and I lost my eye brows and eye lashes but the use of your remedies of three months restored them to their original growth and I have now a good growth of hair on my head
Yours respectfully
Miss EMMA WORTHINGTON
Bangor, May 3, 1841

This is to certify that I have used Mr Adams Venus Water for the space of one year and have found it to be the best article I ever used for the hair. The hair was entirely gone when I first commenced using it but now it is as good as ever. I do not hesitate to say that it is the best article for the hair in use

THE HAIR! THE HAIR!!

NO better evidence is wanting to allow the superiority of the Genuine Buffalo Oil over other preparations, than that a number of Druggists are endeavoring to imitate it and foisting their miserable imitations on the public, for genuine. Read advertisement. Beware of Pedlars.

☞ The genuine Buffalo Oil is fast taking place of all other articles to promote the growth, soften and beautify the Hair; its use gives it a softness that no other article does, and causes it to curl beautifully by free use it will darken and give the hair a satin gloss, it is highly perfumed and gives perfect satisfaction to all who have given it a trial. You will observe the signature of the proprietor: 'William Brown,' also 'Buffalo Oil,' imprinted on the bottle. In consequence of a counterfeit which has recently appeared and is now for sale, I have been persuaded to obtain a new label engraved on copper, for which I have secured a copyright, entered according to an act of Congress in the Clerk Office of the District Court of Massachusetts. NEW AND IMPORTANT DISCOVERY.

DR. PHELPS' COMPOUND

TOMATO PILLS,

[ENTIRELY VEGETABLE.]

A New and Invaluable Medicine for all Diseases arising from Impurities of the Blood, Morbid Secretions of the Liver and Stomach; also, a

Substitute for Calomel;

as a Cathartic in Fever and all Billious Affections.

THESE popular Pills being a combination of a newly discovered Alkaline substance, extracted from the TOMATO PLANT, with other vegetable substances which have been found to modify and diffuse its effects, are believed to be the best Alterative and Cathartic Medicine ever discovered. They have been abundantly and successfully tried, and have received universal approbation for Scrofula, Dyspepsia, Jaundice, Bilious Diseases, Gravel, Rheumatism, Coughs, Colds, Influenza, Catarrh, Nervous Diseases, Acid Stomachs, Glandular Swellings of all kinds, Costiveness, Cholic, Headache, &c.

They are an antidote to Contagious and Epidemic diseases; prevent the formation of Bilious and Liver affections Fever and Ague, &c., in those who reside in hot climates, and low and marshy countries, and are the best Cathartic that can be used for those localities. Seamen will find them an infallible remedy for the Scurvy; and Travellers, the best medicine they can use to counteract the dangers of exposure in unhealthy climates For ordinary family Physic, they are universally approved, as the best ever offered.

These Pills have a powerful and salutary operation upon the Glandular System, removing all obstructions from the Gland, wherever situated, Scirrosities and Scrofulous Taints in all their forms, and if persevered in, no case of Scrofula, however severe, can resist its influence. It is in their operation on the Glandular System, that their effects are so peculiar and potent, and so nearly resemble that of Calomel. In fact, the Tomatine has all the Alterative Deobstruent and Cathartic properties of Calomel, without ever producing unpleasant or injurious effects under any circumstances, either from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the best remedy ever known to counteract the effects of Mercury, completely eradicating every particle of it from the system, and renovating the constitution broken down by its use; which it does by correcting the state of the blood, and through that, correcting the morbid secretions of the glands, and restoring them to a healthy and their own proper action Its effects are analogous to Sarsaparilla and Blood Root, and in its combined action in the ingredients composing the Pills, it exerts a universal action peculiar to itself.

The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the Medical profession and the Public, and a lively interest has recently been directed to the future developement of its active powers, and its Antibilious and Alterative qualities; which the Proprietor is now happy in being able to gratify and presents his Pills to the Public, with the full confidence of their being the most safe and valuable remedy ever discovered adapted to all cases where nature is disturbed, and when any of the functions do not perform their natural or healthy action.

Numerous certificates of cures, from those who have taken them, and the testimony of several Physicians who have prescribed them, all concur to corroborate this opinion. The rapidly increasing demand for, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness.

In presenting this article to the public, the Proprietor was induced by the hope that a medicine prepared with much care, and strict regard to the Chemical and Therapeutic properties of its several ingredients, should take the place of the thousand and one irresponsible nostrums of the present day, with which the country is deluged and from the favor already bestowed upon it by physicians and others, he feels justified in expecting this result.

Often have the cures performed by this medicine been the subject of editorial comment, in various newspapers and journals, and it may with truth be asserted that no medicine of the kind has ever received testimonials of greater commendation than are attached to this.

Females from forty to fifty years of age will find them a powerful assistant to nature, in the important change in the functions of the system, removing all liabilities to Cancers, glandular swellings, &c., and assisting to establish that new action in the animal economy which nature often fails to do. None should avoid a free and continued use of them, if they wish to escape a long train of incurable maladies. For this purpose one should be taken every night and morning, and continued as long as any unpleasant symptoms remain.

For that congested and deranged state of the system which occurs in the commencement of Spring and Summer, these Pills of are particularly applicable, in preventing Rheumatism, Coughs, congestion of the lungs, &c., and have prolonged many a life that otherwise would have been a sacrifice to the changes of the season.

Those persons liable to sore throats, swelling of the glands, coughs, and other symptoms indicating Scorofula or Consumption, should take warning in season, and embrace a remedy, which, while it is searching out and eradicating disease, makes no deductions from the vital powers of the system.

As a Dietetic or Dinner Pill, one taken half an hour after dinner, will sufficiently stimulate the digestive powers of the stomach to a healthy and invigorated action, and they are found extremely serviceable for those who indulge in long dinners, or late suppers, or immoderately in desserts or fruit.

☞ For a full account of this interesting discovery, testimonials, mode of operation, &c., see pamphlets in the hands of all who sell these Pills.

*** Enquire for PHELPS' TOMATO PILLS and be particular to observe that the label is signed G. R. PHELPS, M. D. Price 37 1-2 cents, with full directions accompanying each Box.

From the Boston Morning Post.

New Medicine. An Alkaline principle called Tomatine has been discovered in the Solanum class of plants, particularly in the Tomato, which promises to be of peculiar service in Lung Affections, Scrofula and Glandular obstructions, particularly of the Liver also an antidote to Mercury It is embodied in the Compound Tomato Pills, which are truly worthy of a trial.

From the Patriot & Democrat.

PILLS. Unlike the numerous speculations of the day, there is one medicine which deserves the popularity and patronage it is receiving.—We allude to Dr Phelps' Compound Tomato Pills. Judging from the patronage they are receiving from the Medical Faculty, and the approbation of those who have used them, we should expect they would supercede all others in use, as a family medicine. Being introduced by a respectable and practical member of the Medical profession, whose character in this vicinity is a sufficient guarantee for the character of his medicine, we are enabled thus confidently to speak of it, and fully believe it is entitled to the confidence of the community.

From the N. Y. Transcript.

COMPOUND TOMATO PILLS.

Dr. Phelps of Hartford has brought into successful use a most invaluable medicine in the Pill form the chief component of which is derived from that healthy and pleasant vegetable, the Tomato. As this plant is known to possess medicinal virtues of a high order, as well as a large amount of nutriment, in the medicine into which it is now pounded is known to be a valuable remedy in morbid secretions of the Liver and Stomach, impurities of the blood, and diseases of a bilious type generally. It is an excellent substitute for calomel, as an anti-billious and cathartic medicine, without its injurious properties, and has been found extremely efficacious in the cure of a long catalogue of diseases. Having adventured upon the use of this medicine ourselves, we cordially recommend it to others.

CONSUMPTION

DR. ALLEN'S BALSAM of Horehound, Liverwort, and Pleurisy Root, FOR CONSUMPTION AND LIVER COMPLAINT, Colds, Coughs, Spitting of Blood, Catarrh, Asthma, Difficulty of Breathing, Pain in the Side, Palpitation of the Heart, Oppression and Soreness of the Chest, Pleurisy, Hectic Fever, Night Sweats, Difficult and Profuse Expectoration, and all affections of the Chest, Lungs and Liver.

The Hoarhound, Liverwort, and Pleurisy Root have for centuries been celebrated in the cure of diseases of the Lungs and Liver.

Dr B. D. Allen, after a series of experiments has been able to extract from these medical herbs a balsam, which exerts a most wonderful effect in curing Consumption and Liver Complaint, and all other diseases of the Lungs and Chest. So great has become the reputation of Dr. Allen's Balsam that it is now used in the New York, Philadelphia and Baltimore Hospitals, and in the private practice of our most eminent medical men.

For children laboring under Inflammation of the Lungs, Colds, Coughs, Croup, Quinsy, and Sore Throat this Balsam is of great importance. The number of deaths among children from these diseases is truly alarming. If parents wish to save the lives of their children, and themselves much trouble anxiety, and expense, let them procure Dr B. D. Allen's Balsam; and whenever a child has taken cold, has any fever, cough, or hoarseness, give a teaspoonful of this medicine, and repeat it if necessary; even one teaspoonful will often effect an entire cure. During the winter of 1839, rising of one thousand families employed this remedy in the city of New York. The consequence was, that the number of deaths among children was reduced to less than one half the usual number, as may be seen by the city inspector's report of deaths.

In order to give the reader some idea of the efficacy of this Balsam and how extensively it is used, we here introduce the monthly report of the cures performed in the month of May, 1839, as furnished us by the agent, and published in the New York Sun.

OPINIONS OF THE MEDICAL FACULTY.

At a meeting of the Medical Society of Washington County, the following Resolution was unanimously passed:

Resolved. That from a knowledge of the composition of Dr. Allen's Balsam of Hoarhound, Liverwort and Pleurisy Root, and the most astonishing effects we have seen it have upon our patients, it is our decided and unanimous opinion that it will cure Consumption and Liver complaint and we do strongly recommend it to the faculty and the public generally.

JOHN SMITH, M D. President.
DAVID P. HALE, M. D. Sec'y.

From J. L. Rogers, M. D N. Y. City.

Dr B. D. ALLEN.—Dear Sir For a year past I have been in the habit of prescribing your Balsam of Hoarhound, Liverwort and Pleurisy Root to my patients in private practice I have also used it in the Hospital. I find it a remedy of great efficacy in affections of the Lungs and Liver. In cases of Consumption, Cough, Asthma, and Bronchitis, I have found it a very efficacious, and I believe it is prescribed very generally by the profession.

I have the honor to be, yors, &c.

J. L. ROGERS, M. D.

To B D Allen, M. D.

From Rev Dr. Scott, of New York.

Dr. B. D. ALLEN. Dear Sir I am most happy to inform you that your Balsam of Hoarhound, Liverwort and Pleurisy Root, has cured me of the liver complaint, a disease on account of which I had laboured upwards of six years. I have recommended it to several of my friends when afflicted with the same malady and in every instance has it been successful Hoping that God may spare your life for usefulness. I am respectfully yours.

To B D. ALLEN, M. D. JOHN SCOTT, D.D.

Health and Strength!

DR. S. O. RICHARDSON'S

SHERRY WINE BITTERS,

ARE the only cure remedy for Dyspepsia and Jaundice that has ever been discovered and their general use for 32 years, with recommendations from the most eminent of the medical faculty, and editorial notices from the Boston Morning Post, Boston Daily Mail, Plymouth Memorial, Amoskeag Representative, Burnstable Patriot, Essex Banner, Haverhill Gazette, Lowell Patriot, Bunker Hill Aurora, Charlestown, Portsmouth Gazette, N. H., Dover Gazette, N. H., Northern Star, R. Island, Lincoln Telegraph, Me., New York Evening Signal, &c., must assure the afflicted that they possess wonderful merit.

THEY GIVE LIFE, ELASTICITY AND VIGOR

to the viscera, promote the peristaltic action, cleanse the stomach and bowels from unhealthy accumulations, and purify and enliven the blood in the most thorough and effectual manner.

They are the most certain remedy for all those provoking diseases called Dyspepsia, Jaundice, Liver Complaints, Heartburn, Dizziness, Headache, Wandering or settled Pains, Sinking Faintness, Sour Stomach, Loss of Appetite, Weakness of the Limbs, Nervous Debility, Costiveness, Piles, and all diseases caused by an unhealthy state of the stomach and bowels.

They are the unrivalled and efficacious compound of a

and Graduate of the

NEW-HAMPSHIRE MEDICAL COLLEGE,

who has made the study of Medicine his profession.

Being composed entirely of vegetables, they are of such a nature that they may be taken for any length of time by invalids of any age, without injuring the system or exposing it to take cold.

BEWARE OF PEDLARS!!

The genuine article cannot be obtained of them on any pretence whatever

I NEVER EMPLOY THEM,
NOR ALLOW THEM TO SELL MY MEDICINES.

And all Bitters, put up in phials and small round bottles, purporting to be mine,

ARE RANK COUNTERFEITS.

As some are base enough to fill the empty bottles with their stuff, and thus deceive the unwary, and some have attempted an imitation of my Bitters in papers.

BE CAREFUL OF WHOM YOU PURCHASE!

In consequence of these attempts at imposition, I have been at great expense in having new directions and wrappers, and in future the Bitters in papers will be done up in a different style. See that the envelope has on it my name in full, "entered according to act of Congress, in the year 1840," by S. O. Richardson, M. D., in the Clerk's Office of the District Court of Massachusetts;" and on the other side, "Established at South Reading, County of Middlesex, Massachusetts." The border around the inside directions, (which are printed on white tissue paper,) is so curiously engraved that the words "Dr. S. O. Richardson's Sherry Wine Bitters" present themselves in a thousand different forms. As a copy right has been granted me,

ALL INFRINGEMENTS WILL BE SEVERELY DEALT WITH according to law. The bottles are nearly ready to be issued in the same style.

All Bitters prepared by me have a fac-simile of my signature on the outer envelope,

TO COUNTERFEIT WHICH IS FORGERY.

AS YOU VALUE HEALTH, BE CAREFUL!

Orders from Agents, merchants, traders, druggists, apothecaries and dealers in medicines, will be punctually attended to, and sent to any part of the country, safely packed in boxes.

A liberal discount will be allowed on the sale.

For sale, wholesale and retail, at the

Doctor's Office, 15 Hanover Street Boston,

and in most Towns throughout the New-England States.

SAWS! SAWS! SAWS!

OLD SAWS MADE INTO NEW!

A. RICHARDSON,

(Late of the firm of A. RICHARDSON & CO, Saw Manufacturers, Boston.)

WISHES to inform his friends and the public generally, that he has opened a Shop in BANGOR, third door from corner of York on Exchange St. and a few rods north of the Penobscot Exchange, for the purpose of MAKING AND REPAIRING SAWS of every description. Those who have Saws that want RE-TOOTHING, TRUING or REPAIRING in any way whatever, can have them done in the best possible manner, and at short notice, by forwarding them to me as above.

All Saws repaired at my place will be WARRANTED to RUN as TRUE and SECURE as when FIRST NEW, or the money shall be returned.

Bangor, March 4, 1841. 6 decw A. RICHARDSON.

Important Caution.

It is a singular fact and one much to be regretted that valuable medicines, as soon as they become popular, and have received the test and approval of a discriminating public, are sure to be counterfeited and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This has been notoriously the case with all popular and truly valuable medicines for years past, and will probably continue to be the case for years to come.

The base and contemptible counterfeiter in this way meanly takes advantage of all the efforts and the advertising used by the proprietors of the genuine article to get their medicines into use and deserved popularity. It is therefore not less the duty than it contributes to the safety of every honest individual in the community, to expose, frown on and forever after distrust all heartless ingraters, who thus irresponsibly trifle with health and life

THEREFORE TAKE NOTICE,

There is a person by the name of J. H. ROCHEFORT, now engaged in selling a Pill and Ointment in boxes in exact and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission of only one word on the boxes, viz. WRIGHT'S Pills sold by this Rochefort are evidently meant to defraud and imposition upon the community, they would not have been done up in such exact imitation of the genuine. This person is tall and lightering, with a great Theatrical swagger He was recently known as a very poor player in Baltimore under the musical cognomen of Jim Brown, and about twenty five years of age. It is almost beyond a doubt that he is supplied with the Pills from a Druggist firm in this city, who have been heretofore notoriously connected with counterfeit medicines. As soon as proof is obtained, the fountain head of this nefarious business will be exposed, that the community may shun them as they would a serpent.

IN THE MEAN TIME THE PUBLIC ARE CAUTIONED

against buying WRIGHT'S Indian Vegetable Pills of any one who does not exhibit a certificate of agency signed by the agent for the New England States, and bearing date since January, 1840. Also take particular notice that the following wording is on the Boxes

WRIGHT'S *Indian Vegetable Pills*—(Purgative) of the North American College of Health.

THE INDIAN VEGETABLE PILLS are a sure cure for disease in its every variety of form, because they thoroughly cleanse the stomach and bowels, induce a proper discharge by the lungs, skin, kidney, and stimulate the blood to purify itself. In other words they open all the natural drains, and leave NATURE (THE GRAND PHYSICIAN) free to drive disease from the body. The alimentary outlets, or drains, are the common sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off and so long as they are all kept open, and discharge freely the adjoined portions of impurity the body will continue in health; but when from eating improper food, breathing impure air, sudden transitions from heat to cold, over exaustion, or any other cause, the bowels become costive, the pores of the skin become closed, or the kidneys fail to perform their functions properly, the impurities which should be drained from the body by those outlets will be retained, and continue to accumulate until the body becomes literally loaded with disease.

The above pills may be taken at all times and under all circumstances, with perfect safety. They suit all complaints and all ages, and are as natural to the human constitution as food, consequently they can never injure even the most delicate. Like our food they are digestible; therefore they enter into the circulation. And impart an energy to the blood which enables it to flow with freedom quite to the extremities and consequently to keep the pores of the skin open.—They are true and perfect purifiers of the blood; because they drain all corrupt humors from that life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humors which are opposed to health. They aid and improve digestion, and sound sleep follows their use; because they cleanse the stomach and bowels of their slimy humors which not only irritate and excite the nervous system but parlyize and weaken the digestive organs. In short they possess all the good properties that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

Price 25 cents per Box, with full Directions.

☞ Office and General Depot for the New England States, No 198 TREMONT STREET, near Court street, Boston.

☞ The Regular appointed Agents can receive their supplies of the above popular Pills, as heretofore from the ONLY OFFICE and GENERAL DEPOT for the New England States, 198 Tremont street Boston.

☞ Pedlers or travelling Agents are not allowed to sell the Genuine Indian Vegetable Pills, therefore never purchase from them, for if you do you will be sure to obtain a DANGEROUS and Counterfeit article.

WM BROWN'S COMPOUND BOSET CANDY, for the cure of Coughs, Colds, Difficulty of Breathing, Sore Throat, and all pulmonary complaints. It is also in extensive use for Clearing the Voice of Vocalists and Public Speakers Its efficacy is fully established for removing the above complaints. As there are imitations in the market, that are frequently sold for Genuine, in order to avoid them the proprietor of this valuable Cough remedy, is to the great expense of having it stamped "Wm. Brown, Boston." Also the Directions are signed For genuine observe the stamp, and receive no other—Price 19 cts for 4 oz. The great increase of sales this season is sufficient to satisfy the whole community of its superiority. As an evidence read Certificate;

I hereby certify that in the month of October 1839, I manufactured from a medicated decoction furnished by Wm. Brown, Druggist 481 Washington Street, Boston, 524 lbs of his Compound Boset Candy. Same month this year, 1840, I manufactured for him 2285½ lbs, showing an increase, satisfy all that the article is truly all the go. years since in the same month I made but 50 lbs. It is now ten years to my knowledge that this Candy has been made by Mr Brown.

JAMES RICHARDSON, Confectioner, Washington street, Boston.

For the genuine, call for Brown's Boueset Candy which is for sale in Boston only by the proprietor 481 Washington st. and only G. W. LADD, Druggist, Bangor.
